Skills

Core Java | Adv Java | Spring Basic | Hibernate | MySql | HTML5 | Css3 | Javascript | Bootstrap | Git | Linux

Projects

Project 1

DESIGN AND ANALYSIS ECOMMERCE WEBSITE USING MERN STACK   **2021 - 22**

- Build E-commerce websites for shopping for clothes, groceries, and electronics.

  We have developed one E-commerce web application by using MERN stack technology

  as it contains **MongoDB, Express.JS framework, React.JS library, Node.JS** platform.

- Integrated with payment gateway for checkout

Project 2

VIRTUAL ASSISTANT   **2021 - 22**

- A Personal Virtual Assistant allows a user to simply ask questions in the same manner

  that they would address a human, and are even capable of doing some basic tasks like

  opening apps, reading out news, taking notes etc., with just a voice command.

- We use python in our project and libraries - speech recognition , wikipedia ,Datetime ,

  pyttsx3 , pywhatkit , pyjokes.
